**GOVERNMENT E. RAGHAVENDRA RAO
POSTGRADUATE SCIENCE COLLEGE,
Bilaspur (C.G.)**

BACKGROUND AND OBJECTIVES:

Computer has taken over all the spheres of life and made us dependent on it. It affects and is itself affected by society. The objective of this seminar is to provide a forum, where researchers, academicians and professionals of diverse fields will come together at one place to share their research knowledge and ideas on the latest research on computing and information technology, and its impact on the society. It will help to use the research outcome of one field into another to bring out the best for the benefit of society. This will help to map out the directions for future researches and associations which will help budding researchers to take forward their research work.

GOAL:

To enhance collaboration and networking among stakeholders for capacity building and empowerment to meet socio-economic challenges for societal welfare.

SUB-TOPICS:

Authors are solicited to contribute to the seminar by submitting their research findings, survey works and industrial experiences on impact of computer science and information technology in the following areas, but are not limited to:
